## CORE SKILLS

Backend (Laravel)

Frontend (Vue/Nuxt)

System Architecture

## TECH ARSENAL

Laravel 12 | PHP 8.3+

Nuxt 4 | Vue 3 | TypeScript

MySQL | Redis | TailwindCSS

Docker | Spatie | Rest API

Sanctum

## AI SUPERPOWERS

Claude Code | Antigravity

Autonomous AI Agents

High-Speed Delivery

## INFRASTRUCTURE

Cloudflare (WAF/CDN)

Hetzner Cloud | Domainesia

Coolify (Self-Hosted PaaS)

Docker Containerization

Linux (Ubuntu/Debian)

### The Value Proposition

I am a developer who focuses on **solving business bottlenecks** using **AI-Augmented Development**. By leveraging agentic workflows (Claude Code & Antigravity), I deliver enterprise-grade systems with 3x faster delivery speed and high-precision security.

⚡ **7-DAY RISK-FREE CONTRIBUTION**
I am so confident in my systems that I offer **7 days of free development** to prove the ROI for your enterprise project.

| **3+** | **9** | **400k+** | **99.9%** |

## PROVEN RESULTS

### BerkahPos.com - Enterprise SaaS POS — B2B SAAS

Architected a comprehensive multi-tenant POS system with dual-stock logic and automated payment gateway integration. Deployed on **Hetzner via Coolify & Cloudflare.**

- Implemented **Multi-tenant data isolation** for secure SME usage.
- Automated subscriptions via **Mayar Webhooks** and historical integrity via snapshots.
- Optimized for performance with < 200ms API response times.

### HRIS & Enterprise Ecosystem — HR TECH

Engineered a modern HRIS featuring biometric authentication, GPS location tracking, and complex workflows. Hosted on **Domainesia with Cloudflare WAF.**

- Integrates **Biometric Face Recognition** and GPS Geofencing for 99% accuracy.

### English
PROFESSIONAL WORKING

### Indonesian
NATIVE

- Managed complex data structures with **40+ Models and 150+ APIs**.

## Multi-Vendor Marketplace    E-COMMERCE

Complex marketplace platform featuring auction systems and dual-database architecture. **Hosted on Domainesia and Cloudflare.**

- Scale: **100+ Tables and 250+ Vue Components**.
- Implemented real-time **Auction & Bidding Engine** and student credit system.

## Enterprise CRM & Sales Management    ENTERPRISE

Comprehensive CRM with advanced pipeline tracking and automated reporting engine. **Hosted on Domainesia and Cloudflare.**

- Developed **Weighted KPI Performance Scoring** for sales evaluation.
- Built automated **Excel/PDF Reporting Engine** for stakeholders.

## Enterprise POS    RETAIL

Advanced retail operations system with shift management and automated commission calculations. **Hosted on Domainesia and Cloudflare.**

- Architected **Dual-Session Shift Management** with zero data conflict logic.
- Implemented **12+ Types** of custom operational approval workflows.

## Laundry Workflow Management    LOGISTICS

7-stage sequential workflow management system utilizing a mobile PWA. **Hosted on Domainesia and Cloudflare.**

- Designed a **7-Stage Sequential Workflow Engine** for high-volume logistics.
- PWA integration with **Device Fingerprinting** for secure mobile access.

## Inventory & POS ERP System    RETAIL / ERP

Enterprise-grade ERP with multi-warehouse support and real-time stock tracking. **Hosted on Domainesia and Cloudflare.**

- Reduced checkout time by **60%** with specialized POS interface.
- Achieved **100% stock traceability** via barcode & QR integration.

### KPI & Attendance System

**PERFORMANCE**

Performance evaluation system with weighted scoring and dual-database sync. **Hosted on Domainesia and Cloudflare.**

- Developed 100% objective **Weighted KPI Algorithms** for staff evaluation.
- Seamless legacy attendance database synchronization.

### Security Shift & Attendance

**WORKFORCE**

Specialized system handling complex night shifts and GPS-based verification. **Hosted on Domainesia and Cloudflare.**

- Engineered **Cross-Midnight Night Shift Logic** for 24/7 support.
- 100% time calculation accuracy with photo evidence.
